

How Cosmetics Manufacturers Modernize Operations Through the Cloud

With the right technology and partner, cosmetic manufacturers can scale with growing demand. Cosmetic manufacturers choose Milestone IS for cloud enterprise resource planning (ERP) solutions so they can get a better handle on financials, improve productivity, and become more profitable.

Ensure Cost Accuracy and Improve Reporting

Know **Exactly** What Your Costs Are

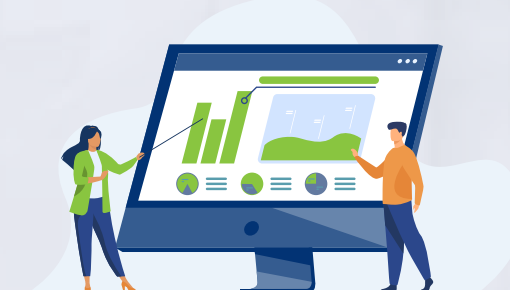

Track your true landed costs with the visibility you get from cloud ERP.

Your cloud ERP solution tracks all fees—from the shipping cost itself to duties and others.

Automate paying landed costs to shipping companies, freight forwarders, or other vendors.

Access 3 reporting tools in 1 solution to derive better analysis from data sources.

Intelligently Forecast and Plan

Automation is **Built-In**

Streamline demand forecasting, replenishment, and production scheduling through automation.

Integrate a materials requirements planning (MRP) system to analyze orders and better plan purchasing.

Get recommendations from the ERP system about what you need to stock.

Automatically schedule machines and labor to better forecast time and costs.

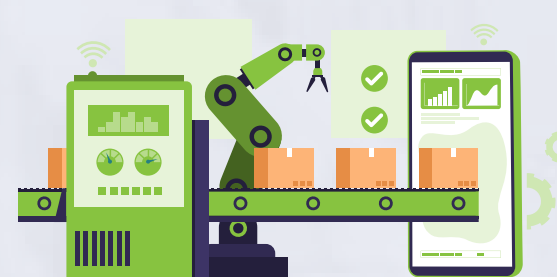

Stop Manually Managing Orders

Seamless Integration with eCommerce/POS

By integrating with e-commerce and web stores, you'll automate order fulfillment and improve service.

You will only have listings on your site that reflect your true stock, improving order accuracy.

Instantly have the capacity to fulfill mass orders—without having to add headcount to do so.

Simplify making updates to prices, managing discounts, and maintaining price lists with flexible pricing.

MILESTONE IS

Technology is only the first part; who you choose as your partner *matters*.

Health and beauty product manufacturers face unique problems. Software can help immensely but only if properly implemented.

With Milestone IS, you get:

- An expert in both cosmetic manufacturing and accounting
- A deep comprehension of your business model and production needs
- A guide to help you make better decisions through technology
- Support for your continuous growth

Discover how you can improve your bottom line and modernize for the future with cloud ERP.
